PROCEEDINGS

OF

THE ROYAL SOCIETY

OF

EDINBURGH.

VOL. XI.

NOVEMBER 1880 TO JULY 1882.

EDINBURGH:
PRINTED BY NEILL AND COMPANY.
MDCCCLXXXII.

CONTENTS.

PAGE

Election of Office-Bearers, ... 1

Introductory Address by the President, the Right Hon. Lord Moncreiff, ... 2

On the Structure of *Euplectella*. By Dr F. E. Schültze. Communicated by Sir Wyville Thomson, ... 2

On Equidifferent Multiples of Irrational Quantities. By Mr E. Sang, ... 2

Algebra of Relationship. Part II. By A. Macfarlane, M.A., D.Sc., F.R.S.E., ... 5

On Dust, Fogs, and Clouds. By Mr John Aitken, ... 14

Solar Eclipse, 31st December 1880. By Mr E. Sang, . . . 18

On the Preparation of Adamantine Carbon or Diamond. By R. Sydney Marsden, D.Sc., F.R.S.E., F. Inst. Chem., &c., . . . 20

Note on an Electric Sonometer. By Professor James Blyth, . 28

Theory to account for certain movements exhibited by low forms of Animal Life, and termed Amœboid. By John B. Haycraft, Senior Demonstrator of Physiology in the University of Edinburgh, . 29

On the Effect of Permanent Elongation on the Specific Resistance of Wires. By Mr T. Gray. Communicated by Sir William Thomson, ... 31

Meconic Acid. By Mr D. B. Dott. Communicated by Professor Crum Brown, ... 31

On the Crystallisation of Silica from Fused Metals. By R. Sydney Marsden, D.Sc., F.R.S.E., F. Inst. Chem., &c., ... 34

On Phosphorus Betaines. By Professor E. A. Letts, . . . 37

On the Action of Haloid Compounds of Hydrocarbon Radicals on Phosphide of Sodium and on the Salts of Tetra-Benzyl-Phosphonium. By Professor Letts and N. Collie, Esq., . . . 46

Notice of an Easy Method for determining the Position of the Principal Focus of an Object-Glass. By Mr Edward Sang, . 50

Note on the Temperature Changes due to Compression. By Prof. Tait, ... 51

PAGE

Preliminary Report on the *Tunicata* of the "Challenger" Expedition. Part III. By W. A. Herdman, D.Sc., . . . 52

On the Histology of the Pedicellariæ and the Muscles in *Echinus sphæra*, Forbes. By Mr Patrick Geddes, F.R.S.E., Lecturer on Zoology in the School of Medicine, Edinburgh, and Mr Frank E. Beddard, B.A., Assistant-Demonstrator of Zoology, Oxford, . 88

Additional Note on an Ultra-Neptunian Planet. By Professor George Forbes, ... 89

On some Effects of Rotation in Liquid Jets. By Professor Tait, . 94

Note on the Influence of Temperature-Change of Conductivity on the Conduction of Heat in Solids. By Professor Tait, . . 94

Obituary Notices of Fellows who died in the course of Session 1880–81 :—Mr Thomas Key, Dr William Lassell, Mr Maurice Lothian, Mr Mungo Ponton, Mr Thomas Knox, the Hon. Lord Ormidale, Professor Sharpey, ... 95–116

On a Simple and Accurate Method of determining the Longitude of a Place by a Single Observer, without the aid of any instrument for measuring time. By Professor G. Forbes, . . . 117

Stilbite, from Kerguelen's Island. By A. Liversidge, Assoc. Royal School of Mines, Professor of Geology and Mineralogy, University of Sydney. Communicated by Mr J. Y. Buchanan, . . 117

On a Simple Form of Selenium Cell, and Experiments therewith. By Professor James Blyth, ... 119

Dust, Fogs, and Clouds. By Mr John Aitken, . . . 122

Note on Thermal Conductivity, and on the Effects of Temperature-Changes of Specific Heat and Conductivity on the Propagation of Plane Heat Waves. By Professor Tait, ... 126

Note on a Simple Method of Showing the Diminution of Surface Tension in Water by Heat. By Professor Tait, . . . 131

On the Cell-Walls of Hepatic Cells. By John Berry Haycraft, M.B., B.Sc., F.R.S.E., Senior Demonstrator of Physiology in the University of Edinburgh, ... 131

Effects of Strain on Electric Conductivity. By M. August Witkowski. Communicated by Sir William Thomson, ... 135

On the Effect of Moistening with Water the opposed Metallic Surfaces in a Volta-Condenser, and of substituting a Water-Arc for a Metallic-Arc in the Determining Contact. By Sir William Thomson, . 135

On Vortex Sponge. By the Same, ... 135

On some Transformations connecting General Determinants with Continuants. By Mr Thomas Muir, ... 135

Note on the preceding Paper. By Professor Chrystal, . . 135

Introductory Address by the President, the Right Hon. Lord Moncreiff. (Continued from p. 2), ... 136

On the Intrinsic Muscles of the Mammalian Foot. By Dr D. J. Cunningham, ... 162

On the Expansion of Rational Fractions, &c. By Mr A. H. Anglin, 162

Algebra of Relationship. Part III. By A. Macfarlane, M.A., D.Sc., F.R.S.E., ... 162

PAGE
Note on a Singular Problem in Kinetics. By Professor Tait, . 173
The Earthquake of 28th November 1880 in Scotland and Ireland. By Charles Alexander Stevenson, B.Sc. Edin. Communicated by Professor Geikie (Plate I*a*.), ... 176
On the Classification of Statistics. Part I. By Mr P. Geddes, . 187
On Professor Cayley's Theorem regarding a Bordered Skew Determinant. By Mr Thomas Muir, M.A., ... 187
The Law of Extensible Minors in Determinants. By Mr Thomas Muir, M.A., ... 187
Additional Note on a Problem of Arrangement. By Mr Thomas Muir, M.A., ... 187
On the Oxidation of Ferrous Salts. By Mr J. Y. Buchanan, . 191
On some Space-Loci. By Professor Tait, ... 197
On the Pressure-Errors of the "Challenger" Thermometers. By Professor Tait, ... 199
The Action of Heat on Thioformanilid. By W. W. J. Nicol, M.A., 199
On the Classification of Statistics. Part II. By Mr P. Geddes, . 202
On Galvanic Polarisation. By Professor Helmholtz, . . 202
On the Average Pressure due to Impulse of Vortex Rings on a Solid. By Sir William Thomson, ... 204
On the Crushing of Glass by Pressure. By Professor Tait, . . 204
On the Cause of the Sounds produced in the Microphone Receiver. By Professor James Blyth, ... 206
On the Classification of Statistics. Part III. Results. By Mr Geddes, ... 209
On the Motion of a Storm in an Easterly Direction being only possible as a Circular Atmospheric Wave. By Robert Tennant, 209
On Chemical Nomenclature and Notation. By Professor Crum Brown, ... 211
Note on a *Phoronis* dredged in H.M.S. "Challenger." By W. C. M'Intosh, ... 211
Additional Researches on the Structure of the *Palæoniscidæ* and *Platysomidæ*. By Dr R. H. Traquair, ... 217
Note on the Heating produced by Compression. By Professor Tait, ... 217
On the Structure of the Skeleton of *Tubipora musica*, and on the Relation of the Genus *Tubipora* to *Syringopora*. By Professor H. Alleyne Nicholson, M.D., D.Sc., ... 219
On an Iodine Battery. By Mr A. P. Laurie. Communicated by Professor Tait, ... 230
Note on Chemical Affinity and Atomicity. By William Durham, 231
On the Physical and Biological Conditions of the Channel between Scotland and the Farö Islands. By Sir C. Wyville Thomson, . 233
On a Class of Sturmian Functions. By Professor Chrystal, . 233
Preliminary Report on the *Tunicata* of the "Challenger" Expedition. Part IV. By W. A. Herdman, D.Sc., ... 233
On Comenic Acid. By D. B. Dott. Communicated by Professor Crum Brown, ... 241

PAGE

On Morgan's Systems of Consanguinity and Affinity. By Dr Macfarlane, ... 245

Note on a Proposition in the Theory of Numbers. By Professor Tait, ... 245

An Address on the Island of Socotra. By Professor I. Bayley Balfour, ... 245

On some new species of Fossil Scorpions from the Carboniferous Rocks of Scotland and the English Borders, with a Review of the genera *Eoscorpius* and *Mazonia* of Messrs Meek and Worthen. By B. N. Peach, ... 245

Report of the Boulder Committee, with Remarks by the Convener, Mr D. Milne Home. (Plates I., II., III.), ... 246

On the Compression of Gases by High Pressures. By Professor Tait, ... 293

Determination of Longitude without a Chronometer. By Dr Menzies. Communicated by Professor Tait, ... 293

Electric Discharge through Colza Oil. By A. Macfarlane, M.A., D.Sc., F.R.S.E., ... 293

On Quaternion Integration. By Professor Tait, ... 293

Chairman's Concluding Remarks at the Close of the Session, . 293

On the Classification of Statistics and its Results. By Patrick Geddes, F.R.S.E., ... 295

Election of Office-Bearers, ... 323

Obituary Notices of Dr John Hill Burton, Rev. Dr Cumming, Dr P. D. Handyside, Professor Sanders, Dr Andrew Wood, . 324

On a Particular Case of the Symbolic Cubic. By Dr Gustav Plarr. Communicated by Professor Tait, ... 342

On Mirage. By Professor Tait, ... 354

Macdougall-Brisbane Prize, ... 361

On the Application of the Rocks of Ben Nevis to Ornamental Art. By Sir R. Christison, Bart., *Hon. V.P.*, ... 365

On the State of Carbon in Iron and Steel: a New Hypothesis of the Hardening of Steel. By R. Sydney Marsden, D.Sc., F.R.S.E., &c., 368

Some Physical Experiments bearing upon the Circulation of the Blood-Corpuscles. By D. J. Hamilton, M.B., F.R.C.S.E., F.R.S.E., ... 370

On the Nature and Functions of the "Yellow Cells" of Radiolarians and Cœlenterates. By Patrick Geddes, . . . 377

On the Thermodynamic Acceleration of the Earth's Rotation. By Sir William Thomson, ... 396

Notes on a Cist discovered at Parkhill, Dyce, Aberdeenshire, in October 1881. By William Ferguson of Kinmundy. With Notes on the Bones by Dr Fife Jamieson, M.B., . . . 405

On a Class of Permanent Symmetric Functions. By Thomas Muir, M.A., ... 409

Optical Notes. By Professor Tait, ... 418

The Historic Evidence for the Destruction of Pompeii and Herculaneum. By the Rev. Dr Cazenove, ... 421

PAGE

On a Specimen of Sowerby's Whale (*Mesoplodon bidens*) captured in Shetland. By Professor Turner, ... 443

On Respiration in the Roots of *Avicennia officinalis* (Linn.) and other Shore Plants; with Observations on the Functions of the Lenticels. By Joseph Bancroft, M.D. Communicated by Professor Balfour, *V.P.*, ... 456

(*a*) Diagnoses Fungorum novorum in Insula Socotra a Bayley Balfour, Carolo Cockburn et Alexandro Scott, lectorum, quas elaboravit Dr M. C. Cooke. Communicated by Dr Bayley Balfour, . . 456

(*b*) Diagnoses Algarum novarum Socotrensium a Bayley Balfour, Carolo Cockburn et Alexandro Scott, lectorum, quas elaboravit Dr G. Dickie, F.R.S., ... 456

(*c*) Diagnoses Lichenum Socotrensium novorum a participibus expeditionum Prof. Bayley Balfour et Dr Schweinfurth, lectorum, quas elaboravit Dr J. Müller. Communicated by Dr Bayley Balfour, 457

On the Colour of the Mediterranean and other Waters. By Mr John Aitken, ... 472

The Surface Geology of Mid-Lochaber. By Professor Duns, D.D., . 483

Remarks on Dielectric Strength. By Professor Chrystal, . . 487

Diagnoses Plantarum novarum et imperfecte descriptarum Phanerogamarum Socotrensium; quas elaboravit Bayley Balfour, Scientiæ Doctor et in Universitate Glascuensi rerum botanicarum regius professor. Pars Prima, ... 498

On a Specimen of *Balænoptera borealis* or *laticeps* captured in the Firth of Forth. By Professor Turner, ... 515

On Minding's Theorem. By M. G. Plarr. Communicated by Professor Tait, ... 528

Chapters on the Mineralogy of Scotland. Chapter VII. By Dr Heddle, ... 549

On the Dimensions of Cast Iron at various Temperatures, with more especial reference to the Phenomena of the Solid floating on the Molten Metal. By W. J. Millar, C.E., Secretary Inst. Engineers and Shipbuilders in Scotland, ... 549

On an Oxycyanide, and a New Oxide, of Bismuth. By M. M. Pattison Muir, M.A., Fellow, and Prælector in Chemistry, of Gonville and Caius College, Cambridge, ... 557

Mathematical Note. By Mr T. B. Sprague, ... 566

On the Manner in which Silicon, Phosphorus, Manganese, and other elements exert their influence upon Steel. By R. Sydney Marsden, D.Sc., F.R.S.E., F.C.S., &c., ... 566

The Effect of Flame on the Electric Discharge. By Dr A. Macfarlane and Mr D. Rintoul. (Plate IV. *a*.), ... 567

Observations on Vegetable and Animal Cells; their Structure, Division, and History. Part I., The Vegetable Cell. By J. Macfarlane, B.Sc. Communicated by Professor A. Dickson, . . 576

On some Points in the Anatomy of the Nervous System of the Pond Snails, Planorbis and Lymnæus. By F. E. Beddard, B.A., New College, Oxon. Communicated by Mr P. Geddes, . . 576

PAGE

A Critical Examination of two Cases of unusual Atmospheric Refraction described by Professor Vince. By Mr Edward Sang, . 581
On a Case of Dyspeptic Vertigo. By Professor Crum Brown, . 594
Note on the Carboniferous Rocks of the South of Scotland. By Archibald Geikie, F.R.S., ... 598
Additional Contributions to our Knowledge of the Fossil Fishes of Eskdale and Liddesdale. By Dr R. H. Traquair, . . . 603
Further Researches among the Crustacea and Scorpions of the Carboniferous Rocks of the Scottish Border. By Mr B. N. Peach, . 603
Report on the Fossil Plants collected by the Geological Survey of Scotland in Eskdale and Liddesdale. By Robert Kidston, F.R.P.S., ... 603
On the Formation of Serpentine from Dolomite. By J. J. Dobbie, M.A., D.Sc., Assistant to the Professor of Chemistry, University of Glasgow, and G. G. Henderson, B.Sc., ... 606
On a Rotating Mass of Fluid. By Sir William Thomson, . . 610
Notes on Atmospheric Electricity. By Professor C. Michie Smith, . 613
Recent Test of Swan's Lamp for Fall of Resistance, with increase of Electromotive Force, and Ratio of Candle-power to work expended. By Mr A. Jamieson. Communicated by Professor Chrystal, ... 615
Communication of Preliminary Observations made by the Committee appointed by the Highland and Agricultural Society, to investigate the Nature and Causes of the Sheep Diseases known as Louping-ill and Braxy, ... 615
On the Definite Article in Greek, with special reference to the Revised Version of the New Testament. By Professor Blackie, . 622
On the Action of the Microphone. By Professor James Blyth, M.A., ... 622
Experiments to Determine the Lowering of the Maximum Density Point of Water by Pressure. By Professor D. H. Marshall, Professor C. Michie Smith, and Mr R. T. Omond, . . . 626
On some Points in the Meteorology of Madeira, both Absolute and Comparative. By the Astronomer-Royal for Scotland, . . 629
On the Anatomy and Histology of *Pleurochæta Moseleyi*. By F. E. Beddard, B.A., New College, Oxford, ... 629
Geological Notes. By Professor Heddle, ... 630
Note on the Absorption of Sea Water. By Mr John Aitken, . 637
Exploration of the Faroe Channel, during the Summer of 1880, in H.M.'s hired ship "Knight Errant." By Staff-Commander Tizard, R.N., and Mr John Murray; with Subsidiary Reports. (Plate VI.), ... 638
Notice of the Solar Eclipse of the 17th May, with Remarks on the Calculation. By Mr Edward Sang, ... 720
Some Experiments on a New Secondary Cell. By Mr A. P. Laurie, B.Sc., ... 724
Obituary Notices of Mr David Smith, Dr William Lauder Lindsay, and Professor Benjamin Peirce, ... 734

PAGE

On Mirage. Part II. By Professor Tait, ... 743
Report of the Boulder Committee, with Remarks by the Convener, Mr Milne Home. (Plates IV., V.), ... 743
Supplement to the Eighth Report of the Boulder Committee, . 787
On Mirage. Part III. By Professor Tait, ... 799
On a Red Resin from *Dracæna Cinnabari* (Balf. fil.) Socotra. By Messrs J. J. Dobbie, Assistant to the Professor of Chemistry, University of Glasgow; and G. G. Henderson, B.Sc. Communicated by Dr Bayley Balfour, ... 799
On Voice-Effort and Rhythm. By the Rev. J. L. Blake. Communicated by Professor Crum Brown, ... 799
The Effect of Moisture on the Electric Discharge. By A. Macfarlane, M.A., D.Sc., and D. Rintoul, M.A., ... 801
The Heats of Combination of the Metals with the Halogens. By Messrs A. P. Laurie and C. I. Burton. Communicated by Prof. Crum Brown, ... 804
On the Kinetic Theory of Gases in relation to Dissociation. By Professor Tait, ... 806
On the Change in the Peltier Effect due to Variation in Temperature. By Mr Albert Campbell. Communicated by Dr Knott, . 807
On the Lowering of the Maximum Density Point of Water by Pressure. By Professor D. H. Marshall, Professor C. Michie Smith, and Mr R. T. Omond, ... 809
Note on the Preceding Paper. By Professor Tait, . . . 813
Vocalisation and Articulation. By the Rev. J. L. Blake. Communicated by Dr Crum Brown, ... 815
On the Order of Succession of Rocks in the North-West Highlands. By Professor Heddle, ... 815
On the Rotation of the Plane of Polarisation by Quartz, and its relation to Wave-Length. By Mr W. J. Peddie. Communicated by Professor Tait, ... 815
On the Condition of Ammonium Salts when dissolved in Water. By W. W. J. Nicol, M.A., B.Sc. Part I., ... 819
On a Solar Calorimeter, and some Observations made with it in Upper Egypt. By Mr J. Y. Buchanan, ... 827
On the Heats of Combination of the Metals with the Halogens. By Messrs A. P. Laurie, B.Sc., and C. I. Burton, . . . 830
On the Nature of Solution. By Mr W. L. Goodwin. Communicated by Professor Crum Brown, ... 834
Diagnoses plantarum novarum et imperfecte descriptarum Phanerogamarum Socotrensium, quas elaboravit Bayley Balfour, Scientiæ Doctor et in Universitate Glascuensi rerum botanicarum regius professor. Pars altera, ... 834
Review of the Session, ... 843
Donations to the Library, ... 845
Index, ... 871
